EDUCATION

Ph.D., Economics, Queen Mary University of London, UK (expected) June 2020
Thesis: Essays on the Economics of Education and Health
Advisors: Prof. Erich Battistin & Dr. Francesco Fasani
Visiting PhD Student, Stockholm University (SU), Sweden 2018-2019
MRes, Economics, University College London (UCL), UK 2015
M.A., Economics, Universidad de La Plata, Argentina 2012
B.A., Economics (*cum laude*), Universidad de Buenos Aires, Argentina 2005

RESEARCH INTERESTS

Primary: Labor Economics, Economics of Education, Health Economics
Secondary: Public Economics, Development Economics

JOB MARKET PAPER

“Single-Sex Primary Schools and Student Achievement: Evidence from Admission Lotteries”

Students at single-sex schools typically perform above average on national tests. However, whether same-gender schooling is an appropriate intervention strategy to boost academic achievement is still an open question. I leverage randomized assignment of 4 and 5 years old children to schools in Malta to estimate the causal effect of single-sex school on short- and mid-run academic outcomes. To alleviate concerns of endogenous school inputs, I compare students within the same school sector, for which coeducational and single-sex schools look alike in many important dimensions except for the gender composition of the student population. I find that attending a single-sex primary school produces large and significant score gains in language and mathematics, for both boys and girls, at the end of primary school. I also find that single-sex primary education has lasting effects on the choice of curriculum track at secondary school. Girls significantly increase the number of science courses while boys reduce the intake of vocational subjects. Survey evidence suggests that the single-sex school effect is mediated through higher student school satisfaction, lower levels of classroom disruption and teachers use of guided instruction.

TEACHING EXPERIENCE

Chief Examiner

Economics of Labour (undergraduate), University of London	2018-2019
---	-----------

Teaching Assistant

Statistical Research Methods II (graduate), London Business School	2015-2018
--	-----------

Game and Strategies (undergraduate), Queen Mary University of London	2015-2017
--	-----------

Development Economics (undergraduate), Queen Mary University of London	2015-2017
--	-----------

Managerial Microeconomics (undergraduate), Queen Mary University of London	2012
--	------

Economics for Business (undergraduate), Queen Mary University of London	2011
---	------

PROFESSIONAL EXPERIENCE AND SERVICE

Consultant, Social Protection and Labor Global Practice, World Bank	2015-2017
---	-----------

Research Assistant for Professor Marcos Vera-Hernández	2011-2015
--	-----------

Consultant, Europe and Central Asia Human Development, World Bank	2012-2013
---	-----------

Researcher, Ministry of Economy of Buenos Aires Province	2009-2011
--	-----------

AFFILIATIONS
